The vote for the Protectionist Ames has also fallen off from 1 to 1½ per cent., while the Democratic candidate has made an equal gain. Just as the train pulled out of the Nav street station the engine, crossing the Hudson avenue tracks, a block off, was run into by a south-bound train on the Hudson avenue line. FORECASTING THE RESULT.

Sheriff Grant Says Cleveland Will Carry the County by 65,000 Plurality.

At 1 P. M. Sheriff Grant called at Police Headquarters and was closeted with Supt Murray some time. On coming out he said he had made a circuit of the city and that his had made a circuit of the city and that his election was assured. He said that all indications were that President Cleveland's plurality in this city would be at least 65,000.

A despatch to the National Democratic Headquarters from Secretary William A. Furey, of the Kings County Democratic Committee, gives estimates to show that Kings is safe for 20,000 plurality for Cleveland. The National Democratic Committee claims Richmond County by 2,500, a gain of 500, and says that the Republicans acknowledge 2,000 plurality for Cleveland.

Eddie Reilly seems to be uniformly running ahead of his ticket. After walking away from his opponents he is receiving hearty support from his friends, the Labor men, and still seems to be drawing much more heavily from them than Miller does.

Warner Miller Takes It Calmly. [SPECIAL TO THE EVENING WORLD.]
HERRINER, N. Y., Nov. 6.—Warner Miller came to the polls at 10 o'clock, shook hands with a few politicians and leisurely wended his way through politicians and leasurery wended his way through the crowd to the polis and passed his ballots in the window to Inspector Charles Sayder. There wa no cheering or enthusiasm, and after voting he stepped back and entered into conversation with J. W. Vrooman and H. J. Munger.

At 10.05 Miller and Vrooman walked up Main street to the County Committee rooms. At 11.20 he came down street and stopped at different of the mail he purchased a World of the newsboys. He reached the polling place at 1.25 and remained there about a haif hour, when he accepted an invitation to lunch with George P. Folts. He returned to the polls after lunch and remained there about a haif for lunch and remained there until they were closed. He did no active work, but spent his time conversing with friends. He was seen to smile when two small boys stepped up in front of him with the exclamation, "He's all right." Miller bent forward and, in a low tone, said: "Who's all right?" and the kids yelled, "Warner Miller."

At no time during the day has be seemed exercised over the election. He does not appear networs, and is cool and indifferent as to the result. He received a telegram stating that Hill was running behind his ticket in lower New York, and that Miller was holding his own uptown. He passed the telegram to friends without a word. IN THE CROWDED DISTRICTS.

Inspectors Working Hard and Little Trouble Experienced.

There was not as much trouble in the crowded election districts as was expected. In the Thirty-second Election District of the Twenty-second Assembly, where over one thousand names were registered, the balloting was carried on in a lively manner.

This is the district where it was feared many citizens would be disfranchised owing to the polls closing at 4 o'clock. The exact registration amounted to 1,017

names, and it was thought that only about seven hundred would be able to vote, but from the way the balloting was carried on this morning everybody who is entitled to vote in the district will be able to do so. CROWDS AT THE START.

The polling place is located at 1518 Avenue A, just above Eightieth street. Long before the opening of the polls this morning a line was formed reaching from the door to a point far above Eighty.second street, but as time flew on, the line was reduced to almost noth-

The method of balloting adopted in this The method of balloting adopted in this district was a complete success.

Officer Eagan stood at the door and as soon as a voter appeared, he would call his name and address. The clerks would then check off his name, and after he had seen his ballot deposited in their proper boxes the voter would pass on through a rear door and would then regain the street by passing through a private hallway.

In this manner about two people could vote every minute. During the first hour 114 ballots were deposited. During the next hour, between 7 and 8 o'clock, 111 good citizens performed their duty, and between 8 and 9 o'clock 118 people passed the ballot-boxes.

The hour between 9 and 10 o'clock the vote was 109, and in the next hour 104 ballots was 109, and in the next hour 10s ballots were cast.

The total reached 556—over one-half the entire registration. At this time the line had again lengthened until it almost reached to Eighty-second street. The crowd was quiet and orderly at all times, and there were no arrests made for illegal voting.

The polling place of the Fifty-second Election District of the same Assembly District, located on the block above, presented a marked contrast to the lower district. Then other returns came slowly in. They were favorably to Cleveland. The Ninth Election District of the Third Assembly District gave Cleveland 244, Harrison 65. Fisk 1 and Cowdrey 7. The Eighth Election District of the Seventh Assembly District next came in, with Cleveland's vote 168 and Harrison's 101. The Thirteenth, of the Third District, gave Cleveland 182 and Harrison 54.

The first ten election districts, from different parts of the city, gave Cleveland 1,580 votes and Harrison 802.

The first fifty election districts turned in gave Cleveland 8, 185 and Harrison 4, 408, The returns continued to come in slowly. At 6. 10 o'clock 190 election districts out of 856 gave Cleveland 31, 990, Harrison 20,210 and Fisk 187 votes.

The total vote of 210 election districts gives 37,348 to Cleveland and 22,758 to Harrison. This makes Cleveland's plurality 14,590. The Prohibition vote is light.

Three hundred election districts, which is about one-third of the city's poll, give Cleveland, 51,834; Harrison, 31,498, making Cleveland's plurality 20, 836.

This would indicate Cleveland's dlurality in the city to be about 60,000. Three hundred and sixty election districts give Cleveland 64,065 and Harrison 41,436. Cleveland's plurality 22,629. Four hundred election districts give Cleve

districts give Cleveland 85,066; Harrison, 54,676. Five hundred and twenty-five election districts give Cleveland 94,241; Harrison,

Five hundred and seventy-five districts give Harrison, 68,164; Cleveland, 103,428. As the vote continued to come in it became apparent that Cleveland's plurality, which promised to be 60,000 in this county, would

be somewhat less. At 7.30 o'clock 710 election districts were heard from. They gave Cleveland 129,465 votes; Harrison, 84,791, and Fisk, 943. This made Cleveland's plurality 44,674, and gave him a probable city plurality of 54,000.3

Affairs assumed a brighter hue, however, with the next fifty districts, which made a total of 760 election districts, which gave Cleveland 139,760 and Harrison 91,360; Cleveland's plurality, 48,-

This would bring his probable plurality in New York County to 55,000.

The reports from Police Headquarters a 8,30 say that the Republicans about there are very glum. Commissioner French concedes the State to Cleveland, and says that this morning he did not think Cleveland would get 25,000 plurality in this city.

Johnny O'Brien called at Police Head querters at 8.85 this evening. He concedes the State to Cleveland, saying that the latter's plurality in the city will reach 65,000; Hill's plurality, 70,000. He said that Grant has carried the Eighth Assembly District.
Seven hundred and ninety-seven election districts give Cleveland 149,260, Harrison 97,322.
